MAGICSEM
VACUUM
METERING UNIT

MaterNacc
an ARBOS Company

Part n: 20202066

Each individual MagicSem

Technical specifications
The pneumatic distributor MagicSem has been designed to correctly distribute seeds in the ground at a consistent, accurate distance.
It is entirely made of certified plastic which ensures excellent thermostability and dimensional stability, including where there is a considerable change

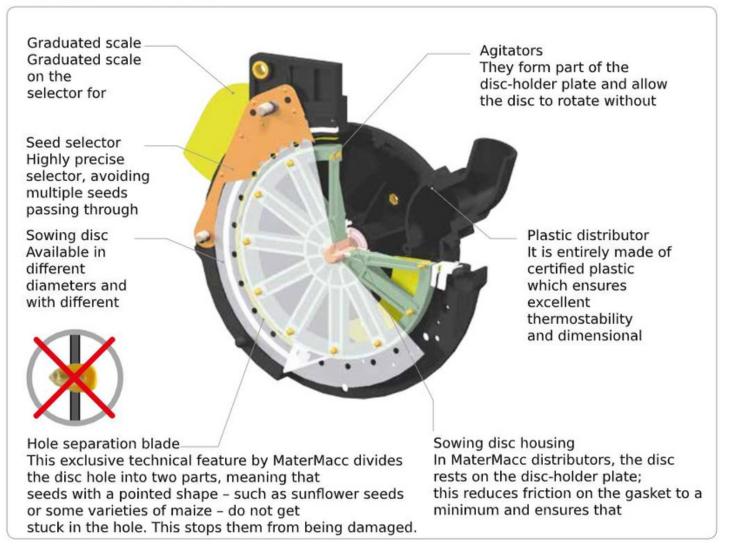

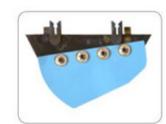

- Fast sowing speed
- Regular, uniform seed distribution
- Different sized seeds distributed with the same disc
- No seed breakage
- Reduced transmission force
- High vacuum volume
- Reduced wear and tear of
